

When Sourcing & Logistics go hand in hand

PMA are experts in sourcing unique merchandise and providing an advanced program of fulfillment/distribution services, which enables merchandise to be distributed at the lowest possible cost and within the fastest possible timeframe.

It is this reputation which has seen numerous Charity-Based Organisations engage PMA to provide this solution to many ongoing National Merchandise Campaigns.

Our partnership with Canteen on the National Bandanna Day project commenced in 2013, and the benefits were immediate.

Our ability to source all key product in the most cost-effective manner, by means of our factory direct manufacturing model, delivered significant savings to Canteen on previous years' purchases on the same core range of products.

Furthermore, by streamlining the distribution process via implementing a fully automated, paperless and tracked inventory management program, further cost savings in reducing processes and duplications on Canteen's previous models were achieved.

PMA's highly experienced Account Management team lead the way in always ensuring we make a positive impact on our clients, and our successful ongoing partnership with valued clients such as Canteen are testimony to our success.

Damien is fantastic to work with and he constantly goes above and beyond for us. I have been bombarding him with various challenges this week and he has been terrific in sorting things out. We really do rely on Damien heavily and I'm frequently unsure of how he manages to pull it all off!
